ecoclear®

Single Speed

High Performance Pool Pump

Superior engineering, optimal performance, whisper quiet operation

- Energy Efficient
- Extreme Heat & Corrosion Resistant
- Heavy-Duty Construction
- Large Basket Less Cleaning
- Maximum Water Flow Minimum Turbulence
- Whisper-Quiet Operation

maytronics

Manufactured by PENTAIR

Quiet. Efficient. Durable.

Introducing the Maytronics Ecoclear® single speed pool pump — the quietest, most energy-efficient single speed pool pump on the market. The revolutionary hydraulic design has been refined over 40 years, delivering superior performance by moving water more efficiently and quietly than comparable pumps. The Ecoclear® pump offers the highest water flow with the lowest electrical usage, resulting in low operating costs, as well as a long life with minimal maintenance.

Ecoclear Single Speed Pump Range

- 750W (1.0HP)
- 1100W (1.5HP)
- 1500W (2.0HP)

- Transparent Cam and Ramp™ lid for easy inspection and cleaning
- Heavy-duty threading for long lasting dependable connections (50mm)
- Extra large strainer basket extends time between cleanings
- Durable, commercial-grade motor never needs lubrication

3 YEARS WARRANTY T&C's Apply 3 YEARS
